About this product

Working at the computer all day long at home or in the office can lead to muscle strains and spasms.

Relieve tired and aching feet with this footrest for optimum comfort during the day.

Improve your posture and reduce back pain with the desk footrest that supports ergonomic posture.

Enjoy better blood circulation and healthy legs with the footrest for light, rested legs.

We want to make your daily life easier with the Ms.Zerone footrest. Our footrest is non-slip, comfortable and robust.

With the "Confort Plus" product options, it massages and relaxes your heels thanks to the upper leather unit.

It stretches your feet and allows you to relax.

"CUIR" leather upholstery option adds softness and warmth to the floor. It also relaxes those with cold sensitivity, prevents cold-related bowel movements and pain, keeps the feet warm, prevents stomach and bowel movements.

By using wood, we ensure that our Ms.Zerone footrests are sustainable and environmentally friendly home office accessories.

The durability and elegance of wood gives you a more beautiful and different option.
